Make a static application for an education platform

1. Home page : Some courses offered will be shown here. The courses will be passed via variable from controller to view.
   a. Course: Programming With Python
      Instructor: Mr. David
      Duration: 4 Months
      Starts: 10th February 2022
2. Contact Us: You will pass some contact person and their email via an array.
   a. Tanvir Ahmed
      Developer
      t.a@st.edu
   b. Rayhan Uddin
      Co-ordinator
      r.u@st.edu
   c. Mushfiq Rahman
      Manager
      ms@st.edu
3. Login: It will just have 2 links 1 for admin another for student.

For these 3 pages layouts will be same.

Admin Home:

It will just show a list of offered courses.. It will have a different layout for admin.

Student Home:

It will just show a list of offered courses.. It will have a different layout for student.
